PROFESSIONAL YEAR ACCOUNTING (SMIPA) NOW WORKING AS A DATA ANALYST AT INTERACTIVE DATA

“My trainers were really helpful. I see them not just as trainers in the professional setting but also friends that understand my needs on being successful in Australian workplace.

The placement consultants are experts in their field. Working with them was reassuring as they were able to match my skills to the needs of internship host companies. My internship experience was really valuable in helping practice my soft skills and help me succeed in the Australian workplace.”
